CARDS WE USE TO SEPERATE DOCUMENTS

- DRAWINGS REVIEW PAGE
- DRAWING MATRIX PAGE
- PINPOINT ISSUES PAGE
- INSPECTIONS PAGE
- MONTHLY PROGRESS MEETING PAGE
- BUILD PHOTO'S & RENDER PAGE
- DOCUMENTATION & MANUALS PAGE
- EQUIPMENT LIST PAGE
- DESIGN PAGE
- OWNERS SUPPLY & VTC PAGE
- MONTHLY ARROW REPORTS PAGE
- SPECIFICATION PAGE

It is really difficult to monitor drawing reviews and comments, following up on revisions and changes the SY have made as a lot of the time the rev comes back to us with i comment and 4 open.

How to have a GA that can be mapped with issue points.
Pinpoint works so to use a similar base.
You are able to add 20 pins per point, the issue is that you may have 20 points & 20 photos the photos do not correspond with each pin, the pin is only marked with the Issue number say (120) it would be very helpful if the pin had a reference to the photo (120) 1 - 20
